

Begonia Dreams

**Your dream is
never too big,
too small
or too wild.**

Begonia Dreams

Everyone dreams. Some dream big, others dream small. Some dreams are bold and colorful, others quiet and refined. And just like dreams, begonias come in all shapes and sizes.

At Beekenkamp, we are begonia specialists. With decades of experience and a passion for perfection, we've created a collection that reflects the full spectrum of human imagination.

Begonia Dreams offers a world of possibilities, specially selected for indoor and outdoor use. From Waterfall varieties that turn any garden into a dreamscape, to indoor begonias that bring charm to your living space. Begonia Dreams makes it beautifully easy.

Choose compact varieties for small dreamers or enormous showstoppers for grand garden statements. Our begonias have an exceptionally long flowering period and display their bright colors for weeks.

With Begonia Dreams, your dream is never too big, too small or too wild.

Introducing BKX-60 for Begonia Dreams Indoor

As Begonia Specialist, Beekenkamp is proud to unveil the latest breakthrough for indoor Begonias: the BKX-60 tray, full delivered. Designed for efficiency, quality and superior plant performance, this innovation sets a new standard in our begonia cultivation.

Our rooted Begonia varieties (BK Collection, Barkos and Ilona) are delivered in a full 60-cell BKX tray. Here's why BKX-60 makes the difference!

PLANT QUALITY ADVANTAGES:

Optimized growth space

In the first stage, plugs are placed in a checkerboard pattern, giving each plant more room to grow. The result? Fuller, broader plants with stronger branching.

Superior root development

Minimal internal movement during the production process at Beekenkamp ensures healthy root formation for robust plants.

GROWER BENEFITS:

Warm cultivation for faster growth

Plants are grown under warm conditions, matching the grower's environment. This ensures consistent growth, saving money and resources. In addition, it promotes faster rooting and better further growth and development.

Automated efficiency

Our automated process, transitions trays from checkerboard to full configuration, ensuring maximum efficiency on a trolley and easy handling for growers.

Mechanization-friendly

The BKX tray integrates smoothly with potting machines, simplifying operations at your facility.

Extended shelf life

Plants in BKX trays stay fresh longer compared to boxed alternatives, reducing waste and improving flexibility.
