Lavandula Aromance

Lavandula Aromance is a stunning lavender variety that perfectly combines beauty and function-ality. Thanks to its compact growth habit, it's ideal for both pots and borders, maintaining its shape with minimal care. What truly sets Lavandula Aromance apart is its long flowering period: from early June to late November, it fills outdoor spaces with fragrant blooms that attract bees and but-terflies.

Aromance is winter-hardy, making it a reliable choice for every season. The flowers display the classic deep blue tones that make lavender so beloved. In addition, a unique white variety is available: bright, pure and eye-catching. This white Aromance is currently the strongest white lavender on the market and a true standout in any garden or on any terrace.

Whether you're looking for a stylish plant for a balcony, a fragrant addition to your garden or a long-lasting choice for perennial planting, Lavandula Aromance delivers. A lavender that's not only beautiful, but also lives up to its promise.
